

ESID Juniors

Are you looking to get the latest news about Inborn Errors of Immunity in an easy and interactive session? The topics of the **ESID Education Day** include a variety of discussed by world-leading experts. All presentations will focus on real-life clinical and laboratory findings so you can apply the knowledge directly to your everyday practice. [Join us](#) in the **Plenary Hall at 8:25 AM on 16 October!**

“Educational Day I: Updates and Reviews on CGD and APDS” covers essential updates on Chronic Granulomatous Disease (CGD) and Activated PI3K Delta Syndrome (APDS), featuring expert presentations on treatment approaches, case discussions, and targeted therapies, followed by panel discussions.

“Educational Day II: Challenges in Assigning the Correct Genetic Diagnosis” focuses on complex diagnostic cases in genetics, featuring multiple case presentations by experts across Europe. The session highlights diagnostic challenges and concludes with an interesting case series from Paris.

“Educational Day III: HSCT in IEI: Who, When and Why?” explores critical aspects of hematopoietic stem cell transplantation (HSCT) in IEI. It covers who should undergo HSCT, the optimal timing, and the reasons for choosing this treatment, followed by a clinical case presentation.

“Education Opportunities in ESID I – ESID Schools” provides an overview of educational opportunities within the ESID Schools program, followed by illustrative case presentations, including an adolescent girl with generalized lymphadenopathy and a newborn boy with suspected SCID.

“Education Opportunities in ESID II – Junior Talent Award” presents information about ESID grants and highlights talent award presentations from three junior researchers. The session

concludes with the announcement of the award winners. **The ESID Juniors Working Party Session** will take you through unexpected findings in IEI. Three memorable cases will be presented by Juniors and discussed with a panel of experts. Follow the twists and turns of the clinical and laboratory findings through interactive discussions, the cases are incredible! [The session](#) will be held in **Callelongue Gradin Hall** at **7:30 AM** on **17 October**.

ESID Juniors Networking Evening

Dear ESID Juniors,

For our ESID 2024 meeting, the [Juniors Party](#) is planning several special activities:

- ESID Juniors Networking Evening – **Registration is Open!**
- “Expect the Unexpected” Junior’s Session – **17 October 2024**

MARK YOUR CALENDAR

The **best party in Marseille** will be on October 16th, from 20.30!

We will meet at the popular bar, La Place des Canailles, Les Docks Village 10.4, 10 Pl. de la Joliette, Metro Joliette

Enjoy music, a free drink and snacks while mingling with ESID Juniors worldwide to a backdrop of Marseille’s modern industrial design!

Attendance is **free of charge**, but you will need to register in advance, as only a limited number of tickets are available!

[CLICK HERE](#) to register.

“Expect the Unexpected” Junior’s Session – 17 October 2024

Dear ESID members,

Time flies and ESID meeting 2024 is coming closer!

Due to the huge success and great feedback we have received throughout the last few years; we are now working on the sixth edition of the Juniors Workshop: “**Expect the Unexpected**” which will take place on **Thursday 17 October 2024** (see the latest version of the programme [here](#)).

In the last years, we have not only had very interesting cases, great presentations, outstanding moderators, terrific expert panels but also exciting discussions that were generated around them.

If you are an **ESID Junior member (*)**, we invite you to send us an interesting case on **inborn error of immunity (**)** and have the opportunity to get an oral presentation at the ESID 2024 meeting in Marseille. Selected presenters will discuss their

cases with a top experts' panel during our interactive workshop!

Presenters of the selected cases will benefit from a **FREE REGISTRATION** (or reimbursement) to the ESID meeting 2024.

Submission instructions:

- Please submit a **maximum of 5 slides** summarizing the clinical case. *Additionally, you can add an abstract (max. 300w) to include extra information that can be helpful in evaluating the case. You will count with only 13 minutes to present and discuss your case.*
- Please email your slides to: esid@kenes.com
- **Extended Deadline: 07 June 2024**

Selection criteria

All the presentations will be evaluated by three independent reviewers. Higher scores will be given to those cases where the final diagnosis and/or outcome are UNEXPECTED, considering the initial manifestations. Those cases rising a big discussion around laboratory results will also be highly scored (explaining pitfalls in the laboratory results that can be useful for the audience in their daily practice). The better the case is described (more data, confirmed pathogenicity of genetic variants, etc) the higher it will be scored.

We are very much looking forward to receive your applications!

Antonio Marzollo

Chair of ESID Junior's Working Party
